

- Keep the adjustable throttle at the lowest setting (MIN) for all initial learning stages. Increase the throttle opening only when the student rider has achieved sufficient skill to warrant an increase in engine power and top speed.

- Empty the fuel tank before transporting the motorcycle.

- For safety, the MR50 must be properly adjusted and maintained. Be sure to make a "Pre-Riding Inspection" and be sure to impress the student rider with the importance of checking all the items thoroughly before riding the motorcycle.

- A prime objective in the instruction process is developing the student's self-confidence. This self-confidence comes with a total familiarization with the motorcycle controls and their functions.

#### **WARNING:**

**Flared pants or pants with large cuffs can catch on control levers, kick starter, foot pegs and drive chain and, consequently, are specifically NOT RECOMMENDED as rider apparel.**

- Always obey local off-road riding laws and regulations and show respect for private property by obeying posted signs.

- Always preserve nature and watch for fire hazards such as dry grass conditions, etc.

- Clean up trash and do not litter.

- When off-road riding, ride in the company of a friend on another motorcycle so that you can be of mutual assistance to each other in the event of trouble.
