

Have your tyres replaced by your dealer.  
For recommended tyres and air pressure, see  
“Specifications.” ➤ P. 104

Follow these guidelines whenever you replace  
tyres.

- Use the recommended tyres or equivalents of  
the same size, construction, speed rating, and  
load range.
- Do not install a tube inside a tubeless tyre on  
this scooter. Excessive heat build-up can cause  
the tube to burst.
- Use only tubeless tyres on this scooter. The  
rims are designed for tubeless tyres, and  
during hard acceleration or braking, a  
tubetype tyre could slip on the rim and cause  
the tyre to rapidly deflate.

## **WARNING**

Installing improper tyres on your scooter  
can adversely affect handling and  
stability, and can cause a crash in which  
you can be seriously hurt or killed.

Always use the size and type of tyres  
recommended in this owner's manual.
