

Inspecting the Brake Pads

Check the condition of the brake pad wear indicators.

The pads need to be replaced if a brake pad is worn to the indicator.

1. **Front** Inspect the brake pads from below the brake caliper.
 - Always inspect both left and right brake calipers.

2. **Rear** Inspect the brake pads from the rear right of the motorcycle.
 - If necessary have the pads replaced by your dealer.
 - Always replace both left and right brake pads at the same time.
